Wild Catters May Have Murdered White Man Whose Body Is Found

Coroner Walter Chenault and Sheriff Forman are today investigating the finding of the partially decomposed body of a white man on a hillside eight miles out in the direction of Hartselle. The body is believed to be that of a white man, "Red" Nelson, who is said to have been missing from home for some time.

The officers are investigating a rumor that Nelson was murdered by operators of wild cat stills, whom he is reported to have "turned up" to the authorities.

SERVICE FLAGS ARE DEDICATED SUNDAY BY THREE CHURCHES

AT FIRST PRESBYTERIAN THE PASTOR URGES PEOPLE TO TURN TO GOD.

As many as three of the Twin City congregations dedicated service flags yesterday. The First Methodist, the Westside Presbyterian and the First Presbyterian churches.

The names of those for whom the flag at the First Presbyterian was unveiled are:

In France—Quartermaster Sergeant Henry Albes, Lieut. Gorman Jones, Dawson Todd. These three were members of the First Presbyterian Sunday school when boys.

Lieut. Raymond R. Brown, whose parents, wife and children are members of that church, and who were present last night.

Maj. Hal Long, now member of Atlanta's military police.

In Training Camp—Fred Littlefield James Todd, Charles Camody, Neal Speake, Eugene Guy, Homer Rhodes, J. W. Budendorf, Enos Smith.

The beautiful silk flag, the gift of Mr. and Mrs. John D. Wyker, was placed in position at the close of an eloquent sermon by Rev. W. N. Sholl. Masters William and Raymond Brown, sons of Lieut. Raymond R. Brown, now on the firing line in France, unveiled the flag. The scene was very affecting and there were few dry eyes. Misses Ruth Hartung and Ruth Banks sang solos.

Dr. Sholl in his sermon was much concerned because of the lack of a complete turning to God on the part of the people. In this connection he said: "But remember that Sisera was defeated in the days of old only because the people cried out to God, when they recognized the divine element in the situation as the determining factor. In their wonderful song Deborah and Barak acknowledge the help of God before they speak of a single human hero, or one feat of human heroism. Praise the Lord for the avenging of Israel, when the people willingly offered themselves; the earth trembled and the heavens dropped, the clouds also dropped water."

"While we continually speak of this war as a holy crusade, as a battle for righteousness, I have reason to believe that our people are not crying to the Lord as they should. There are no general signs of humility and repentance. Only in a comparatively few instances has the spiritual nature of our people been profoundly stirred. In our community the president's proclamation setting aside last Thursday as a day of public prayer and worship scarcely caused a ripple on the sea of our community life!"

Friday, June 7 Want Ad Day

On Friday, June 7, the fifth Booster Edition of the Daily will be distributed all over the Muscle Shoals district. Owing to a scarcity of houses in that section a number of families have recently been attracted to Albany and Decatur and have been located here directly through the booster papers.

Have you a house or rooms to rent? If so list same in Friday's issue. Let's show them what we have to offer, and while you are about it why not have a "Want Ad Day" on this occasion—an issue in which everyone who has anything to sell or trade presents their wares to the public through the medium of the want column.

List your houses, rooms, vacant stores, second-hand autos, wagons, buggies, harness, chickens, eggs, pianos, talking machines, farm machinery, or anything of value which you do not want. In other words, use this issue to swap "What you don't want for what you do want."

GULF DIVISION IS GIVEN HONOR PLACE IN REDCROSS DRIVE

LED THE ENTIRE UNITED STATES AND TRIPLED ITS QUOTA. ALABAMA'S GREAT SHOW-ING.

Washington, June 3.—The American Red Cross second war mercy fund totals \$166,439,291, with indications that when all reports from the drive of a week ago are tabulated, a \$70,000,000 over-subscription of the \$100,000,000 goal will be shown.

In announcing these figures, Henry P. Davison, chairman of the Red Cross war council, said the returns show that more than 47,000,000 Americans—nearly half the total population of the country—contributed. Those giving to the first fund last year numbered only about 5,000,000.

Not only did every Red Cross division in the country over-subscribe, but one, the Gulf, turned in more than three times the amount of its quota, while five others, the Southern, Atlantic, Mountain, Northwestern and the Southwestern more than doubled their allotments. The insular and foreign division quadrupled its \$300,000 quota. Every state attained its goal, five more than tripled it and 16 others and the District of Columbia more than doubled theirs.

PORTS OF NEW YORK AND BOSTON CLOSE

Captain Of Edward Cole Tells How He Was Ordered To Abandon His Ship Which Was Then Blown Up

(International News Service.)

WASHINGTON, JUNE 3.—THE NAVY DEPARTMENT ANNOUNCED THIS AFTERNOON THAT THE PORTO RICAN STEAMSHIP CAROLINA WAS BEING ATTACKED BY A SUBMARINE SOUTH OF THE ZONE WHERE THE U-BOATS WERE OPERATING.

THIS INFORMATION CAME FROM AN S. O. S. WIRELESS CALL PICKED UP BY A NAVAL RADIO STATION.

(International News Service.)

AN ATLANTIC PORT, JUNE 3.—ONE OF THE GERMAN SUBMARINES OPERATING OFF THE ATLANTIC COAST HAS BEEN EITHER SUNK OR CAPTURED, ACCORDING TO UNVERIFIED REPORTS RECEIVED HERE THIS AFTERNOON.

WHILE WITHOUT CONFIRMATION, THE REPORT WAS TO THE EFFECT THAT A STEAMER WAS NEARING THIS PORT WITH THE MEMBERS OF THE SUBMARINE CREW ABOARD.

AN ATLANTIC PORT, JUNE 3.—A BRITISH STEAMSHIP WHICH CAME ZIG-ZAGGING INTO PORT HERE TODAY REPORTED HAVING PICKED UP WIRELESS APPEALS FOR HELP DURING THE NIGHT FROM TWO AMERICAN TANKERS WHICH HAD BEEN ATTACKED BY GERMAN U-BOATS OFF THE ATLANTIC COAST. BOTH TANKERS REPORTED THAT THEY WERE SINKING.

BECAUSE OF THE BRITISH ADMIRALTY RESTRICTIONS WHICH FORBID A SHIP WITH PASSENGERS ABOARD TO ANSWER SIGNALS FOR HELP, THE LINER MADE NO RESPONSE BUT REDOUBLED HER SPEED AHEAD.

(International News Service.)

Washington, June 3.—American warships this afternoon were combing coastal waters for German submarines. Two are known to be off the Atlantic coast. It was admittedly possible that this number would be increased when the complete details are available. The ports of New York and Boston were closed by direct orders of the naval department, and other important ports may also be closed while the chase is on.

The German U-boat has sunk three schooners, according to the latest reports reaching the naval department. It was rumored along the seaboard that this was only a part of the prey of the underwater pirates, but the navy had no further information, although admitting the possibility that there had been other sinkings as yet unreported.

For weeks there have been widely separated reports of the presence of hostile craft near the American coast. Other reports placed them off the Mexican coast. Later they were reported in the Gulf. A week ago reports were circulated that suspicious craft had been seen off the Delaware capes. Today's announcement of the operations of at least two submarines in the very door yards of the port of New York came as a complete shock to Washington.

(International News Service.)

Washington, June 3.—Official confirmation that German submarines actually had carried the war into American coastal waters came from the navy department today. It was announced that three American schooners had been sunk by enemy submarines off the Atlantic coast. Practically the entire naval strength of the Atlantic fleet on this side the water is now in pursuit of the submarines. Officials said that they felt confident this was an attack in force.

The department did not deny that the number sunk might be much larger, but it was only officially known that three had been sunk. Secretary of the Navy Daniels was personally watching for all dispatches received from the naval authorities along the Atlantic coast. The naval officials refused to say anything and reports of the U-boat raid were decidedly conflicting. The number of vessels attacked varied in these accounts from five to eleven.

News of the U-boat activities were brought here first by 11 members of the crew of the Edward H. Cole. They reported that their vessel had been sent to the bottom about 4 o'clock yesterday afternoon. Capt. Harry G. Newcombe, who was in charge of the arriving crew, made a similar report to the United States shipping commissioner. According to Captain Newcombe, two U-boats took part in the attack.

According to the statement made by the arrivals, the German officer said: "Captain, you and your men have just ten minutes to get into your boats." It took the crew only five of the allotted ten minutes to clear the way. The German U-boat crew then took charge of the schooner and planted bombs at different places. Just before the explosion an American steamship appeared and one of the U-boats gave chase. The Captain Newcombe saw of the steamer she was pushing for the high sea under full steam with the U-boat in pursuit. He told the shipping commissioner that the U-boats came to the surface within 200 yards of his vessel and that both were flying the German flag.

(International News Service.)

Washington, June 3.—Secretary Daniels announced this afternoon that the port of New York had been closed to navigation because of the presence of hostile submarines off the Atlantic coast. No additional information concerning the reasons for the closing were forthcoming. (Continued on Page Four.)

THE UNPATRIOTIC ACTION OF THE WESTERN UNION.

The Western Union Telegraph Co., the largest in America, has slapped the administration directly in the face by refusing to admit the jurisdiction of the War Labor Board and by announcing that it will continue its policy of discharging employees who are members of the commercial telegrapher's union. Such action, at such a time, is not only unwarranted but is also a very serious menace, as it means that telegraphic communication is likely to be largely interfered with at a very crucial period of the nation's history.

It is hardly conceivable that a corporation of such roomions as the Western Union, one that has grown rich from serving the American people, should be so forgetful of the favors it has received as to impose any immediments in the way of the federal government. And for what? Merely that it may cling to its own set opinions as to whether or not labor unions shall be recognized to the extent that union and non-union men shall be on the same basis during the war. National Railway Director McAdoo has already decreed that the transportation system of the United States shall treat all employees with equality. The War Labor Board recommended that the telegraph companies do the same thing. Yet they balk!

The fate of the world is today in the hands of the patriotic employee. Is he not entitled to the one thing that he asks—the right to organize as capital has done? The Western Union almost enjoys a monopoly. Should its employees be forced to battle single handed?

THE REAL AIM OF THE SINISTER HUN.

The Frankfurter Zeitung, of Germany, says, apropos of the present German offensive:

It can be regarded as the intention of the German supreme command first to loosen the whole front of stationary warfare and to convert the stable wall of cement into an improvised front consisting of masses of reserves and shaken at several points of vital importance. Human bodies instead of armored works.

As soon as this aim has been achieved, and as soon as the whole position of the English and French armies has become, so to say, ripe for storming, and the development of the enemy reserves has been forced, the time has come for the last and decisive strategic blow.

The ambitious plans, as briefly outlined, should sweep away forever any lingering doubt as to the ultimate purpose of the Germans. People who write that way are seeking peace on no terms save crushing victory—acknowledged right to rule the world and the utter defeat and destruction of the allied armies and navies.

THRIFT AND ECONOMY.

The Council of National Defense and the advisory commission of the Council believe that a concerted effort for economy by the people of the nation will not only go far toward paying America's expense in the war, but will reduce consumption of raw and manufactured materials essential to the conduct of the war.

The Council urges all to refrain from unnecessary expenditures of every kind, and to bear constantly in mind that only one thing is now of real importance, and that is the winning of the war.

The nation's resources in manpower, money, transportation, foodstuffs, raw materials and fuel have already been subjected to heavy strain, and it is the clear duty of every citizen to guard against in-

creasing this strain by a single wasteful act.

It is most creditable for everyone—man and woman, boy and girl—to be economical in dress, food and manner of living. Every evidence of helpful self-denial on the part of all in a time like this is most commendable.

This war is more than a conflict between armies; it is a contest in which every man, woman and child can and should render real assistance. Thrift and economy are not only a patriotic privilege, they are a duty.

FIGHT FANS TURN FROM HEAVYWEIGHTS

By Jack Veiock.

International News Sports Editor

New York, June 3.—The fight fans of the country are no longer interested in the heavyweights.

The calling off of the Willard-Fulton battle July 4 was met without a sign of regret from the boxing public and it will probably be many a day before the big fellows in pugilism get back into the spotlight again.

Col. J. C. Miller saw so many evidences that the country did not want the big fight that he became discouraged, and no one could blame him. The bout was handed the chillsome shoulder at every turn, and it deserved no better reception.

Had Willard and Fulton played their cards right, they would have stood a chance to make a clean-up. But they would have had to fight more than ten rounds to win popular approval.

In turning down the offer of Promotor Torricchio, of New Orleans, the big fellows—Willard in particular—made one grand mistake. Willard offered the fifty-year excuse that the climate in Louisiana is too hot in July. He did not get away with it in the eyes of the boxing public.

The long search for a sight for the bout became so tiresome that each new attempt of Promotor Miller evoked only passive interest among the fans. The public was more interested in seeing the bout turned down than anything else.

Since Colonel Miller gave up the ghost, there is little chance that the heavyweights will get back into the spotlight until after the war is over. And even then it is doubtful whether Willard will get a cordial reception should he still be in a mood to defend his crown. It would not surprise the boxing public to see Willard retire undefeated.

COAL WEEK TO ENCOURAGE EARLY ORDERS OF FUEL WILL BEGIN TODAY

(International News Service)

Washington, June 3.—Today marks the beginning of "Coal Week" designated by the fuel administrator to encourage early ordering of fuel.

With the bulk of the year's supply of coal ordered in advance, the Fuel Administration has stated, the various distributing agencies of the Government will be better able to effect an equitable distribution of fuel between different sections of the country. Production is steadily increasing, it is stated, but it must be further increased if a shortage of fuel next winter is to be avoided.

Already in many communities one-third of the normal coal orders have been placed by both industrial and domestic consumers, the fuel administration reports. In the eastern part of the country the dealers have been practically overwhelmed with early orders for anthracite, but west of the Mississippi the orders have been slow in coming in as to lend no stimulus to increased production, and as a matter of fact, there has been some shutting down of mines for lack of orders.

Our Job Department is equipped to take care of anything you may need in the commercial printing line. Let us have your order.

The most brilliant, spine-thrilling patriotic drama ever made into a motion picture—a picture to challenge the pride and the conscience of all humanity.

Thousands of men organizing and drilling to fight the battle of civilization. Thousands of men marching away to the front and into the jaws of death.

Before your very eyes nations banding together in a blood brotherhood against a common enemy.

Heroes and cowards transformed into supermen of gigantic courage walking and scurrying into a living hell of shells and fumes to bring in the wounded from artillery-raked plains.

Women showing their bravery in the home and at the camps; women living through the inferno of battle to nurse and stimulate their men to victory; women risking certain death to be near the men they love. And the arrival of the Stars and Stripes on the battlefield in France in a climax that brings audiences up to their feet with cheers.

These are the exciting things you see in Edwin Bower Hesser's inspiring photo-panorama, "FOR THE FREEDOM OF THE WORLD."

Throughout its eight remarkable reels you hear the tread of thundering feet marching along the Roads to Glory in defense of their blood brothers' honor and the rights of civilization.

The Federated Woman's Club page edited by Mrs. Dora C. Fell, of June 2, fairly scintillated with a comprehensive knowledge of the club woman's duty to her nation. Her editorial is a credit to the womanhood of Alabama, expressed clearly and concisely. The executive board of the A. F. W. G. made no mistake when she was made editor.

Mrs. Jas. Hagan, president of the A. F. W. C., in her message, "The War Service of the A. F. W. C.," sounded the reveille awakening the womanhood of Alabama to the time when by concerted effort she can best serve her country.

Here is the story of the million men of the National Army. Here is the history in vivid picture of what your son, your brother, your sweetheart, your pal is to pass through.

You who fly the Service Flag before your home, you who have watched your closest friends depart—here is the living picture of the life that America's youth is leading in training camps, in transports, behind the front—and soon—in the very trenches themselves.

First the training camps. You see Americans learning the art of war for the first time in a generation. You see five thousand men charging a trench—the rush and sweep of the attack, the race up specially built inclines of board and dirt. You see them leap the barbed wire, and bayonet the mimic enemy on the other side. And then "dig in."

Hand grenade practice, setting-up drills, gas attack, star shell practice, aerial defense—all that America of the National Army is learning you see. And then—these grim and terrible lessons are put into practice in sober, deadly earnest on the fire-swept battle fields of France before your very eyes. The heroism of it is the heroism of actuality.

YOUR boy, YOUR sweetheart, YOUR pal. Here is the story of HIS struggle "For the Freedom of the world."

AERO MAIL ROUTES

SOUGHT BY AERO CLUB

(International News Service)
New York, June 3.—The executive committee of the Aero Club of America has written to Secretary Baker and Assistant Postmaster General Praeger endorsing the plan to extend the aerial mail service from New York and Washington to Pittsburgh and Cleveland, and from New York to Boston.

The club authorities point out that he tests have shown the absolute necessity of giving more extensive cross country flying training to military aviation students and point out that by extending the aerial mail service the students will have different routes to cover which they can cover in turn, thereby gaining extensive experience in cross flying.

IT'S NOT ALL TRENCH LIFE

United States Soldiers Will Spend Most of Their Time Behind the Front.

There are always four soldiers behind the front for everyone in it. You'll be eight or ten days or, may be even two weeks in the trenches, and then you'll move back for a rest and some other attalion will take your place. So don't get the notion that it's one continuous round of shells and bullets and grenades and cold dugouts. It isn't. The larger portion of every man's time will be spent out of the line, in towns and villages beyond reach of any enemy except aircraft. Otherwise human nerves couldn't stand it.

Speaking of nerves, did you know that horses are subject to nerve shock such the same as men? The veterinary hospitals always have bunches of horses suffering from "debility"—nothing but nervous strain. But they don't have any mules in that shape. No, sir! Whenever you find a hardtail in a hospital he's there from a shrapnel wound or a cut or because another mule kicked him. No nerves in his case! All of which merely goes to prove that it takes roughnecks in this game. The more I see of war the stronger I get for roughnecks. You can't do without them. Chautauqua salutes won't win a war—you need two-fisted men with hair on their chests.

Another relief from strain will be "leave." Our men are to get it every three months, according to the present program; in fact, it will be obligatory for everybody in order to keep them fit. They will be given seven days with free transportation and their hotel bills paid. Special trains, with a capacity of a thousand men each, will run every week for this purpose.—George Pattullo in the Saturday Evening Post.

"PLATTSBURGS" FOR SCHOOL TEACHERS

To Be Held by National Security League Throughout Country During Coming Summer.

"Teachers' Plattsburgs," at which 500,000 public school teachers will be given practical training in patriotic education, will be held during the coming summer in practically every state in the Union by the National Security League. The scheme of this elaborate new division of the League's Patriotism Through Education campaign is conceived on the same basic idea along which the League has been working for some time, concentrating on the teachers of the youth of the land and thereby reaching the children through the teachers and the people through their children.

The objects of the League's campaign are two-fold—active combating of German propaganda and awakening a more responsible American citizenship.

At Summer Schools.

The Security League will conduct these "Teachers' Plattsburgs" through the medium of the summer schools for teachers that are held throughout the country every year. It has not yet been determined how many centers will be used. The matter is being taken up with all of the 700 summer schools of the country and probably between 50 and 75 of the training camps will be established, the schools selected being chosen after careful investigation as to attendance, breadth of influence and convenience of location.

The training camps will be conducted by leading educators whose co-operation will be enlisted by the League. The actual instruction will be under the direction of Dr. Robert M. McElroy, educational director of the League, and the members of the "National Patriotic Education Faculty" which he has organized. The League already has over 1,000 experienced patriotic speakers on its Speakers' Bureau list. A great many of these men and women will be detailed to the "Teachers' Plattsburgs" and their number will be augmented by volunteers from the principal colleges and universities of the country, whose academic duties have prevented them from taking active part in the patriotic education work outside their immediate field, but who will be free during the summer months.

War Spirit.

The teachers will be given a series of vital interpretations of the war by men and women who have given careful study to the situation. In addition to this instilling of the war spirit in the teachers, the training camps will also afford them practical instruction in the best methods of imparting to the youth of the land the two war principles on which the Security League's Patriotism Through Education campaign is based—the menace of Germany to America, and the necessity of individual service on the part of every man, woman and child in the country in order to prevent defeat.

A preliminary letter has been sent by Doctor McElroy to the directors of all the summer schools of the country.

The Itching and Sting of Blazing, Fiery Eczema

Seems Like the Skin Is on Fire. There is a harassing discomfort caused by Eczema that almost becomes a torture. The itching is almost unbearable, and the skin seems on fire with the burning irritation. A cure from local applications of salves and ointments is impossible, because such treatment can only allay the pain temporarily. The disease can only be reached by going deep down to its source.

The source of Eczema is in the blood, the disease being caused by infection which breaks out through the skin. That is why the most satisfactory treatment for all so-called skin diseases is S. S. S., for this remedy so thoroughly cleanses the blood that no impurities can remain. Get that no impurities can remain. MRS PATJENS GOES TO MAGIC CITY JAIL

WOMAN CHARGED WITH DISLOYAL UTTERANCES TURNED OVER TO FEDERAL AUTHORITIES.

Mrs. Patjens, the white woman arrested Saturday on the charge of violating the federal espionage law, was carried to Birmingham this morning by Patrolman Grubbs, and was turned over to the U. S. department of justice. The woman was confined in the Morgan county jail Sunday. It is alleged that she made disloyal remarks in which she charged President Wilson with being a coward and expressed the hope that Germany would win the war. Her husband has been discharged by his employers, Twin-City Bread Company.

The warrant for the arrest of Mrs. Patjens was issued from the office of U. S. Commissioner Watts at Huntsville Saturday afternoon.

Thousand Red Cross Nurses Wanted From Gulf Division

Of These, Alabama Must Furnish 361. The Recruiting Drive Begins Today

New Orleans, La., June 3.—(Special) Twenty-five thousand Red Cross nurses in service by January 1.

And the Gulf division, American Red Cross, must furnish 1,000. Awakening the country as never before to the fact that the United States is in the business of beating the Kaiser, is the announcement of the great number of nurses wanted for service in camps and cantonments here and principally for hospitals in France.

Thousands of southern boys have gone to camps, Red Cross and Liberty Bond campaigns have gone away "over the top," but the calling into service of 1,000 graduate nurses from Louisiana, Mississippi and Alabama will strike home with telling force the message—"Help Win the War."

Announcement was made today for the first time the quotas of the three states in the Gulf division:

Louisiana 372
Alabama 361
Mississippi 267

Total 1,000
The Alabama committees appointed for the nurses enrollment campaign have been named as follows: Miss Julia T. Dainwood, 1808 Seventh avenue, North Birmingham; Miss Helen McClean, 2330 Eleventh avenue, North Birmingham; Miss DeWitt Dillard, Mobile Infirmary, Mobile; Miss Rice, Mobile Infirmary, Mobile.

The general registration is directed by Miss L. A. Daspit, R. N., Bureau of Nursing, Gulf division, A. R. C., 225 Post Office Building, New Orleans. Nurses can apply either to the committees of the respective states or to the Gulf division, bureau of Nursing. Whether the application is made through the committee or to the Gulf division bureau, the applicant will be credited in the quota of the state where she is located.

From June 3 until the Gulf division's states get their quotas, the campaign will be waged. Speakers will appeal to nurses in hospitals, to those in the homes of the rich and in physician's offices, and the graduation classes in the nurses training schools in the three states.

The name of every nurse and every student nurse in the three states is on file in the Gulf division headquarters, and in a day or two booklets, telling the story of the Red Cross nurse service, an appeal to their patriotism and humanity, will be sent to them.

At the same time, an appeal will be directed personally to all physicians to surrender the services of the graduate nurses in their offices, and to give up so-called "luxury" nurses.

Interesting figures on the number of nurses already in Red Cross service, totals in the United States, Mis-

issippi, Louisiana and Alabama, are given as follows for the first time:

	Registered, Feb. 1, 1918	Assigned
Gulf.....	2083	258
Louisiana.....	887	158
Mississippi.....	450	29
Alabama.....	746	101

"Enrolled" means the number of graduate nurses who have signed for war service; "assigned" means that number is "over there" or in the army camps of the United States, and the "Registered" column is the total registered with the state in which they reside.

WILSON MAY TAKE OVER WIRE LINES

PRESIDENT EXPECTED TO PREVENT THREATENED STRIKE OF OPERATORS.

(International News Service)

Washington, June 3.—Another effort on the part of the federal authorities was expected to be made to prevent the threatened strike of the union telegraphers throughout the country. The situation today was admittedly serious. It is believed that President Wilson will take a hand in the trouble.

It became known today that President Wilson is closely watching the situation. He possesses ample power to take over the wire companies as a war necessity.

Western Union Stubborn.
New York, June 3.—The Western Union Telegraph Company has declined to submit to the jurisdiction of the national war labor board, which sought to adjust the differences between the company and those of its employees who are members of the Commercial Telegraphers' Union of America.

The Western Union's decision became known when the report of an executive session of the war labor board was made public. It embodied a report by W. H. Taft and Frank P. Walsh, joint chairmen of the board, who conferred with Newcombe Carlton, president of the Western Union, in an effort to compose the difficulties between the company and those of its employees who had been dismissed. It was charged, because they joined the Commercial Telegraphers' Union of America.

U. S. Merchant Vessels Sunk

(Continued from Page One.)

understood that until the navy can act to curb the menace no vessels will be permitted to sail from New York.

Secretary Daniels later authorized the following statement: "The navy department has been informed that three American schooners have been sunk off this coast by enemy submarines. The steamship Bristol arriving in New York this morning reported that the 4-masted schooner Edward H. Cole was sunk by a German submarine at 6:30 Sunday, 50 miles south of Barnegat, N. J., and that the Bristol rescued the crew and brought them to port. It also rescued the crew of another sailing vessel, which was sunk. The Bristol reported that she encountered a submarine 38 miles off Barnegat at 4:20 p. m. Sunday and that two submarines were operating in that locality. The steamship Grecian reported that the schooner Jacob S. Haskell was sunk by gun fire by a German submarine in the same general vicinity at noon Sunday. The crew was saved. It was also reported that the Isabella D. Willey was shelled by a submarine. Captain Newcombe of the Cole stated that his vessel was attacked by a German submarine which boarded him, took away his papers and placed bombs on board. Captain Newcombe reported that the submarine attacked him at about 200 feet and carried two large guns. He reported that he saw another submarine in the near vicinity submerge with a periscope showing."

Shortly before the statement was issued an order that the port of New York be closed to navigation was made. All outgoing vessels were refused clearance and incoming craft were brought in under restrictions. Officials declared that the presence of the submarines on this side of the Atlantic would not halt overseas troop movements.

The anti-submarine craft of the Atlantic fleet were operating in accordance with plans made long ago for just such an emergency. It was positively stated that there was no danger of a raid on a large scale, but officials were reticent as to precautions they had taken to prevent this.

Boston, June 3.—Collector of Port Billings said today that he had received private advices that U. S. war vessels had captured the U-boat which sank American vessels off the port of New York. He said he made the announcement for what it was worth.

Boston, June 3.—Rear Admiral Spencer S. Wood, commander of the first naval division, closed the port of Boston at noon today. The admiral said that he was not surprised at the appearance of the U-boats off the coast.

(International News Service)
New York, June 3.—After the maritime exchange here had permitted an announcement that 15 American ships had been sunk off the American coast by German U-boats, an official of that organization at 12:15 o'clock this afternoon flatly denied that authentic information to that effect had been received. He admitted that one vessel, the Edward H. Cole, was known to have been sunk, and that five others were reported to have been sent to the bottom.

Naval officials are inclined to believe that the submarines operating off the coast are of the super-submarine type. There was no comment on the boldness of the raid nor expressions of fear anywhere. Officials looked for news of the bold work of the enemy craft to stimulate naval recruiting to a high degree.

Washington, June 3.—There was no official confirmation here of the report telegraphed to Boston that an American destroyer had captured a German submarine and was towing it to that port. Secretary Daniels said: "I have received no such report, but of course, hope that it is true."

Details Of Sinking Of U. S. Transport Received

(International News Service)

Washington, June 3.—None of the passengers, including wounded returning soldiers, were lost in the sinking of the American transport President Lincoln, the navy department announced this afternoon. None of the survivors were seriously injured.

Washington, June 3.—Additional details, perhaps a complete story of the sinking of the American transport

President Lincoln, reached the navy department today and are being prepared for publication. At 10 o'clock Secretary Daniels declined to give any outline of the advices.

Service Flags Are Dedicated Sunday

(Continued from Page One.)

Either we do not realize the seriousness of the situation, or we are under estimating the importance of the divine factor in this religious war. The stars will move forward with us, but they will halt in their courses until the mass of the people become more penitential and reverent and God-fearing.

"Would that some few words that I could say tonight might lead our people away from their religious apathy toward this righteous war and turn them more truly to God."

LOYAL ALABAMA'S SPLENDID RECORD

IN THE LIBERTY LOAN AND RED CROSS DRIVES ALABAMA ACHIEVES THE COUNTRY.

NOW WAR SAVINGS STAMPS

Gives Her Another Grand Opportunity—Secretary McAdoo's Message to the Patriotic People of State.

Alabama has jumped to the forefront in war activities. In the Third Liberty Loan drive she was a leader among the states in the sixth federal reserve district. In the second Red Cross war fund campaign she gave approximately a million dollars more than her quota of \$460,000. Certainly, the citizens of Alabama should feel proud of these records, which show that the state is awake to the war.

The next opportunity Alabama will have to make a record for patriotism is in the great drive for War Savings Stamps, which has begun and will culminate on the 28th day of June in thousands of patriotic gatherings in every state. This drive in Alabama has been very carefully planned by Crawford Johnson, State War Savings Director, and the County Directors and there is no doubt that it will be a splendid success, as the people of the state recognize the War Savings Campaign as one of the greatest and most far-reaching of all war activities.

The idea of the drive is to get every citizen to pledge himself or herself to purchase at different periods all during the year 1918, a specific amount of War Savings Stamps. The United States government is calling upon everybody to do this. Read this message from the Secretary of the Treasury and do your duty:

A Message From Secretary McAdoo.
Secretary McAdoo has authorized the following statement:

"It is essential that the American people economize and save in order to make available to their Government the money indispensable needed for the war and to release supplies and labor required for the production of things necessary for our own military forces and for the military forces of the nations associated with us. One of the best methods of bringing about this result is for everyone to pledge himself to economize and save and to purchase, at definite periods, a specific amount of War Savings Stamps, thus giving concrete evidence of his support of the practice of War Savings."

"To achieve this object there will be conducted, under the direction of the Treasury Department, and with the strong endorsement of President Wilson, a campaign for pledges, culminating on June 28th, when loyal Americans throughout the country will be asked to commit themselves to this program."

"The progress of the war demands constant and increasing sacrifices. We are sending our young manhood to represent us on foreign battlefields, where they are called upon to sacrifice not only their personal comfort and material interests but their lives as well. It is appropriate, therefore, for the American people who are privileged to remain in safety and comfort at home to consider their sacred obligation to support our gallant men and to pledge themselves earnestly to save and economize in order that our soldiers and sailors may have the food and clothing and the arms and ammunition without which they cannot fight."

"To the end that this intensive campaign may be most effective, I earnestly bespeak the co-operation of all the organizations and institutions of the nation which, through their influence and active support, can further this work. It is desirable that the attention of the entire people be centered on their obligation to pledge the Government this kind of support for the winning of the war, and with this object in view, that June 28, 1918, be observed as a National War Savings Day."

"With adequate preparation for a National War Savings Day on June 28th, I am sure that the American people will be glad to participate and to pledge themselves to become war savers, thereby giving concrete evidence of their devotion to their country."

A PATRIOTIC SCHOOL.

From Huntsville comes the report to State Director Crawford Johnson of the War Savings committee that \$20,000 worth of Baby Bonds were bought by the school children out of an enrollment of 1,600 pupils. In sending in his report, Superintendent B. C. Johnson of the Huntsville school writes:

"If I do say it, we have done more than we have talked, and I am hoping to pass this little word along, because the children and teachers who have worked so zealously deserve some recognition of this spirit of patriotism."

TUSCALOOSA LEADS.

Tuscaloosa city ranks first, and Tuscaloosa county second among the cities and counties in Alabama in the sale of Thrift and War Savings Stamps to April 6th, according to figures recently made public at a conference of county directors in Birmingham, which was attended by Mr. J. T. Horne, director for this county.

The per capita subscription of Birmingham, Tuscaloosa's nearest competitor in the State, was \$2.04, while that of Tuscaloosa was a little over \$6; or three times as great. The other cities of the state are even farther behind Tuscaloosa's fast pace.

The total subscription of Jefferson County on April 6 were \$270,620 or \$1.18 per capita. The total subscriptions of Tuscaloosa County, which was second to Jefferson, were \$52,067, or \$1.10 per capita of population for the county.—Tuscaloosa News.

A Fight for Life

It has been tight or die for many of us in the past and the lucky people are those who have suffered, but who are now well because they heeded nature's warning signal in time to correct their trouble with that wonderful new discovery of Dr. Pierce's, called "An-u-rie." You should promptly heed these warnings, some of which are dizzy spells, backache, irregularity of the urine or the painful twinges of rheumatism, sciatica or lumbago. To delay may make possible the dangerous forms of kidney disease, such as Bright's disease, diabetes or stone in the bladder.

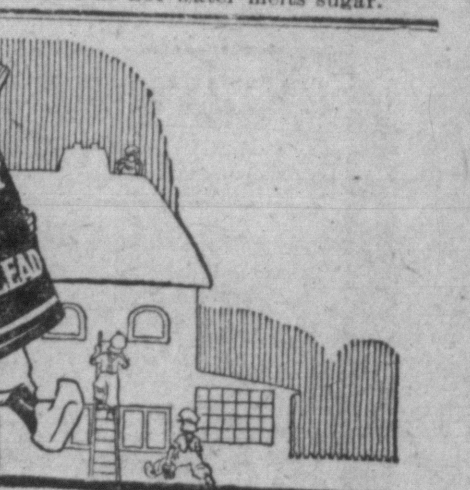

To overcome these distressing conditions take plenty of exercise in the open air, avoid a heavy meat diet, drink freely of water and at each meal, take freely of Dr. Pierce's Anuric Tablets (double strength). You will, in a short time, find that you are one of the firm indorsers of Anuric, as are thousands of neighbors.

SYLACAUGA, ALA.—"I suffered greatly with my back and kidneys. I called in doctors and they did me no good, but recommended an operation. I saw Anuric for kidneys and backache advertised so sent up to the drug store and got a package, and it cured me. This was one year ago. I was down in bed and had taken many different kinds of medicines but obtained no relief from them."—A. W. CUMBER.

CAESAR, MISS.—"This is to certify I have been taking Doctor Pierce's Anuric Tablets for uric acid and kidney trouble, and would say to anyone who is afflicted with such, please for your health's sake, try Anuric without delay. I had used several different remedies but to no avail, now I am recommending Anuric Tablets far and wide."

"I have known of Dr. Pierce's Remedies for 30 years, they are well worth using."—B. J. WILLIAMS.
Step into the drug store and ask for Anuric, or send Dr. V. M. Pierce, Buffalo, N. Y., 10 for trial pkg. Anuric—many times more potent than lithia, eliminates uric acid as hot water melts sugar.
